

SIBLING NEEDS SURVEY

- ▶ Are you 16 years old or over?
 - ▶ Do you have a sibling or someone who was like a sibling to you (brother, sister, cousin, whāngai) who was diagnosed with cystic fibrosis, Type 1 diabetes, or cancer one year ago or longer?
 - ▶ Were you living at home with your family/whānau when they were diagnosed?
-
- ▶ If you have answered 'yes' to these questions, we would like to invite you to participate in a 10-15 minute online survey.
 - ▶ The survey aims to identify the unmet needs of siblings of children with cystic fibrosis and other chronic illnesses which will be valuable in the development of services which protect the wellbeing of healthy siblings.

YES, PLEASE TAKE ME TO THE SIBLING NEEDS SURVEY
